

Vue Storefront Theme

A custom slidev theme for Vue Storefront

This is a title with image

You can have sub-titles

This is a section

This is a section sub-tile

**We don't make mistakes, just
happy little accidents.**

Bob Ross

Need to make a few big points?

- ✓ Increased font size...
- ✓ ...and centered content
- ✓ Also show badges `info` `success` `warn` `error` `default`
- ✓ help stressing a few points

Perfect acceleration

Best starting point for any eCommerce project. Don't waste months on repetitive groundwork and focus on your own features & customization

- ✓ Ready eCommerce theme
- ✓ Server-Side Rendering and JAM Stack
- ✓ Fast and scalable
- ✓ Fast, accessible, easy to customize

```
<template>
  <h1>Hello World"</h1>
  <div class="message">{{ message }}</div>
</template>
<script>
  export default {
    => ({
      message: 'Great to be here!',
    })
  }
</script>
<style scoped>
  .message {
    color: red;
  }
</style>
```

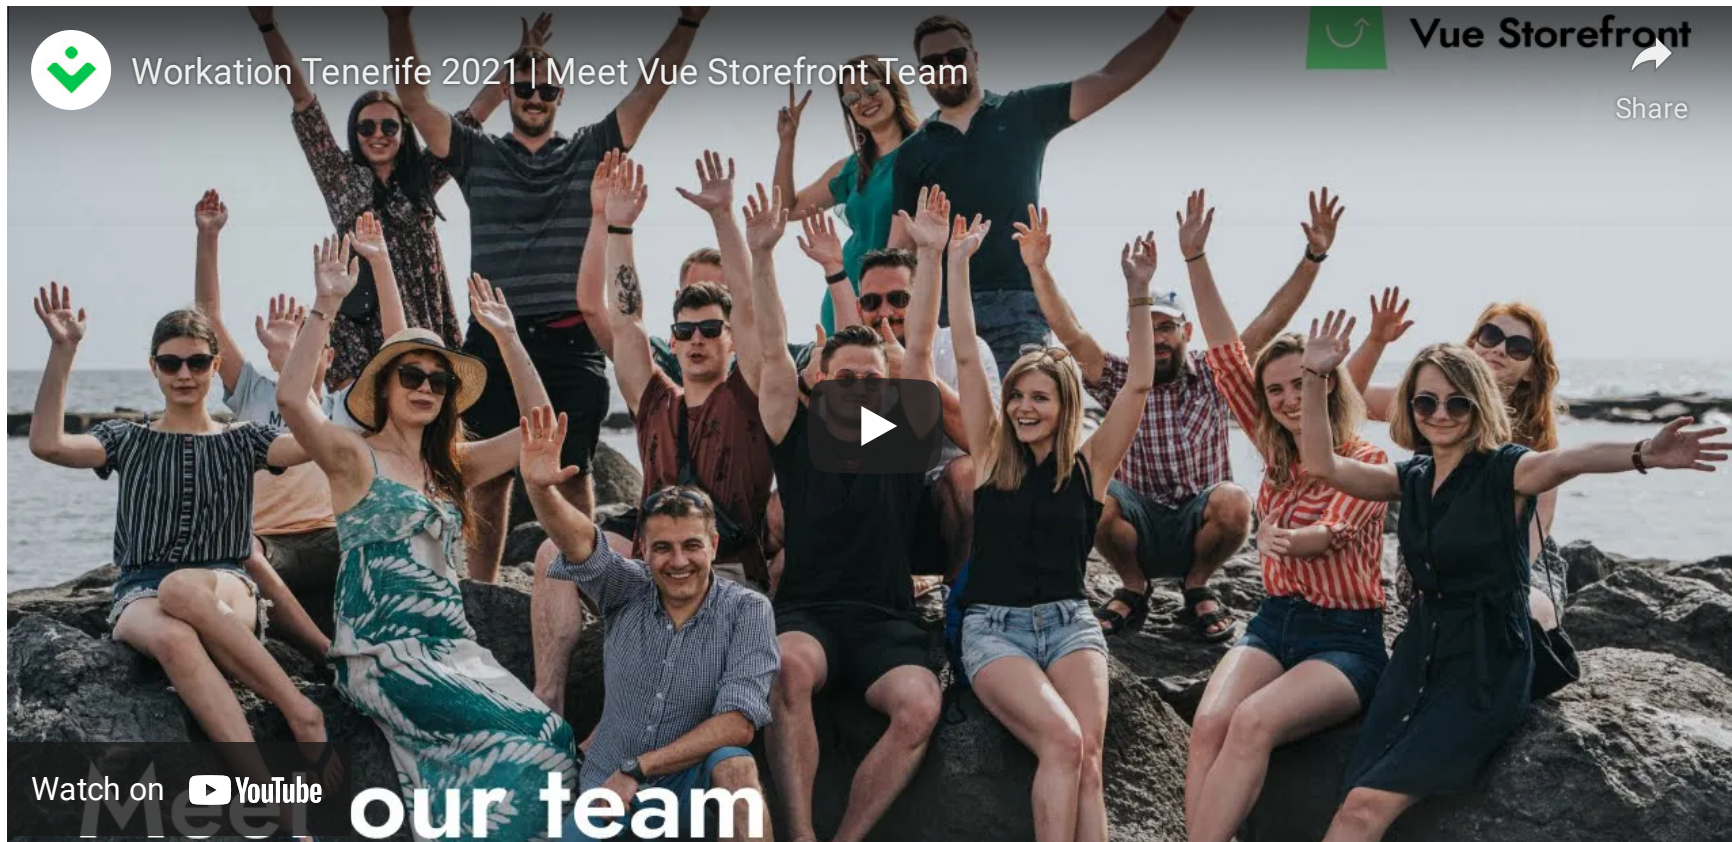

Code

Use code snippets and get the highlighting directly!

```
<template>
  <h1>Hello World"</h1>
  <div class="message">{{ message }}</div>
</template>
<script>
  export default {
    => ({
      message: 'Great to be here!',
    })
  }
</script>
<style scoped>
  .message {
    color: red;
  }
</style>
```

You can include Video!

JS

CSS

SSR

```
1 v <template>
2 v   <h1>Hello World"</h1>
3 v   <button @click="show = !show">Toggle
    Message</button>
4 v   <div v-if="show" class="message">{{ message }}
    </div>
5 </template>
6 v <script>
7 v   export default {
8 v     data: () => ({
9       show: false,
10      message: 'Great to be here!',
11    }),
12    };
13 </script>
14 v <style scoped>
15 v   .message {
16     color: red;
17   }
```

Hello World"

Toggle Message

Thank you for listening!

It's Q&A time!
